Weekly Meeting Log

Week Starting:	5/10/2026 TO 11/10/2026			
Meeting Details	**START TIME**	**2pm**	**END TIME**	**3pm**
Student Name:	Aoife Leahy			

Description of work completed since previous meeting Notes : Also record project backlog, use notes page as required
I met with my supervisor, Phil Morris, to discuss which game engine would be best for my project. After considering the options, I decided to use Godot instead of Ren'Py. Phil agreed that Godot would be a better choice because it offers more flexibility and allows me to develop additional features for my project. After discussing the game engine, we looked at a Proof of Concept (PoC) completed by another student. We went through the document together and discussed which sections I needed to complete for my own project. This helped me understand what was expected for my PoC and how to organise the information.

Tasks to be completed this week **Notes: record any additional tasks on notes page as required.**	
1	Confirm Godot as the game engine for my project.
2	Work through the PoC template and identify the sections I need to complete.
3	
4	
5	
6
